YOUSSEF MOHAMED HASSAN

JUNIOR FRONTEND DEVELOPER | REACT.JS | NEXT.JS

01017812190 | youssef20mo05hamed@gmail.com | Cairo, Egypt
Portfolio | GitHub | LinkedIn

PROFILE

Junior Frontend Developer focused on React.js and Next.js, with hands-on experience building responsive interfaces, integrating REST APIs, and managing server state with TanStack Query. Interested in maintainable, component-based UI and translating design references into responsive web experiences.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
State & APIs: TanStack Query, Redux Toolkit, REST APIs, NextAuth.js
Tools: Git, GitHub, Vercel, Figma
Other Languages & Concepts: C++, Python, SQL, OOP

EXPERIENCE

Frontend Developer Intern (Project-Based) | CodeOrbit Tech | Remote | Jun 2026 - Sep 2026

- Completed assignment-based frontend tasks, building responsive interfaces with React.js and JavaScript.
- Used Git and GitHub for version control and project submissions; completed project evaluation and received feedback.

SELECTED PROJECTS

E-Commerce Platform | Next.js, TypeScript, NextAuth.js, Tailwind CSS

- Built a responsive product catalog with URL-based filters for category, size, and color.
- Implemented authentication, protected routes, and a persistent cart; built reusable UI with Tailwind CSS and shadcn/ui.

Links: GitHub Repository

Task Manager | React.js, Redux Toolkit, Tailwind CSS

- Implemented task creation, editing, deletion, and priority selection using centralized Redux state and a responsive interface.

Links: GitHub | Live Demo

Cosmos Space Dashboard | HTML, CSS, JavaScript

- Built interactive sections for astronomy imagery, upcoming launches, and detailed planet information.
- Created responsive layouts and interactive UI elements with HTML, CSS, and JavaScript.
